“The greatest gifts we can give our children are the roots of responsibility and the wings of independence.”

- Maria Montessori

Dear Swan River Parents,

As the season of color starts, we are bravely embracing the colder weather and all that it brings! The children are almost settled into their classroom environment, comfortably following classroom routines and confidently taking on lessons. Along with all the excitement & colors, the Fall season also brings enjoyable & unique ways to practice sensorial and practical life skills. With fun activities such as making apple pies, comparing the seasons, leaf art work, & making Jack-o'-lanterns, the children effectively perform tasks that utilize high levels of concentration & enhance their fine motor skills, which is instrumental in developing writing skills. Please take the time to explore some of these activities as a family.
