Fundraising & the Receiving of Gifts

PURPOSE

Swan River Montessori Charter School acknowledges and appreciates the desire of school-related support groups to enhance school programs and activities by making financial and in-kind contributions. Such groups include, but are not limited to, parent-teacher organizations. Generally, the purposes for such contributions are identified by the officers of the support group in consultation with the School Director.

GENERAL STATEMENT

School fundraising efforts must be approved by the School Director in advance. In general, SRMCS limits school-wide major efforts in which students are expected to assist in raising funds to four (4) per year. Any new fundraising efforts desiring to use the name or good offices of the school must obtain the approval of the SRMCS Board of Directors as a prerequisite to organizing.

SRMCS also acknowledges the possibility that private individuals and staff members, as well as other organizations and foundations, may be willing to contribute financially to the well-being of the school's programs and activities. Those gifts will be accepted by the SRMCS Board of Directors and placed in the General Fund unless otherwise noted. It is a goal of the Board that all students will benefit equally from the resources generated by these gifts and that opportunities for all district students will be as comparable as possible.

The Board of Directors relies upon approved organizations to operate in a manner consistent with public expectations for the school and reserves the right to withdraw sponsorship from organizations which violate the bounds of community taste.
